Sub: Sale of renewable power on short term basis from HPSEBL during the period from 27th January, 2016 to 31st March, 2016. Reg. – Accounting of Renewable Energy by HPSEBL.

Ref: 1. Our office letter no. MPPL/DEL/PT/DDED/25172 dated 19.11.2015
2. DDED office letter no. No. ED/EE/RPP/2015-16/6891 dated 21.01.2016
3. Our office letter no. MPPL/DEL/PT/DDED/26029 dated 04.02.2016
4. DDED's office mail dated 20.02.2016

Dear Sir,

This is with reference to your office LOI referred at serial no. (2) above and our office letter referred under serial no. (3) above, vide which MPPL is supplying renewable power from Himachal Pradesh State Electricity Board Limited (HPSEBL) to DDED to meet its renewable power obligations (RPO) during the period from 27th January, 2016 to 31st March, 2016. Further, this is with reference to DDED's office mail referred at serial no. 4 above, vide which DDED has requested MPPL to submit documents to JERC supporting the fact that the power purchased by DDED from HPSEBL is renewable energy.

In this context, this is submitted that, being the Nodal agency of RE power for HP state, HPSEBL has supplied non-conventional energy from Renewable source hydro station below 25 MW Capacity i.e. small hydro projects owned by HPSEBL and from small hydro projects owned by IPP's who have signed long term (40 Years) PPA with HPSEBL on preferential tariff.

It is also declared that neither HPSEBL nor small hydro projects, owned by IPP's, have accounted this renewable power for meeting RE Obligation (RPO) of HPSEBL or REC benefits by HPSEBL/IPP's.

This is for your kind information and necessary action please.

Thanks & Regards,
For Mittal Processors Pvt. Ltd
